

WYRD
Technologies

Welcome to WyrD

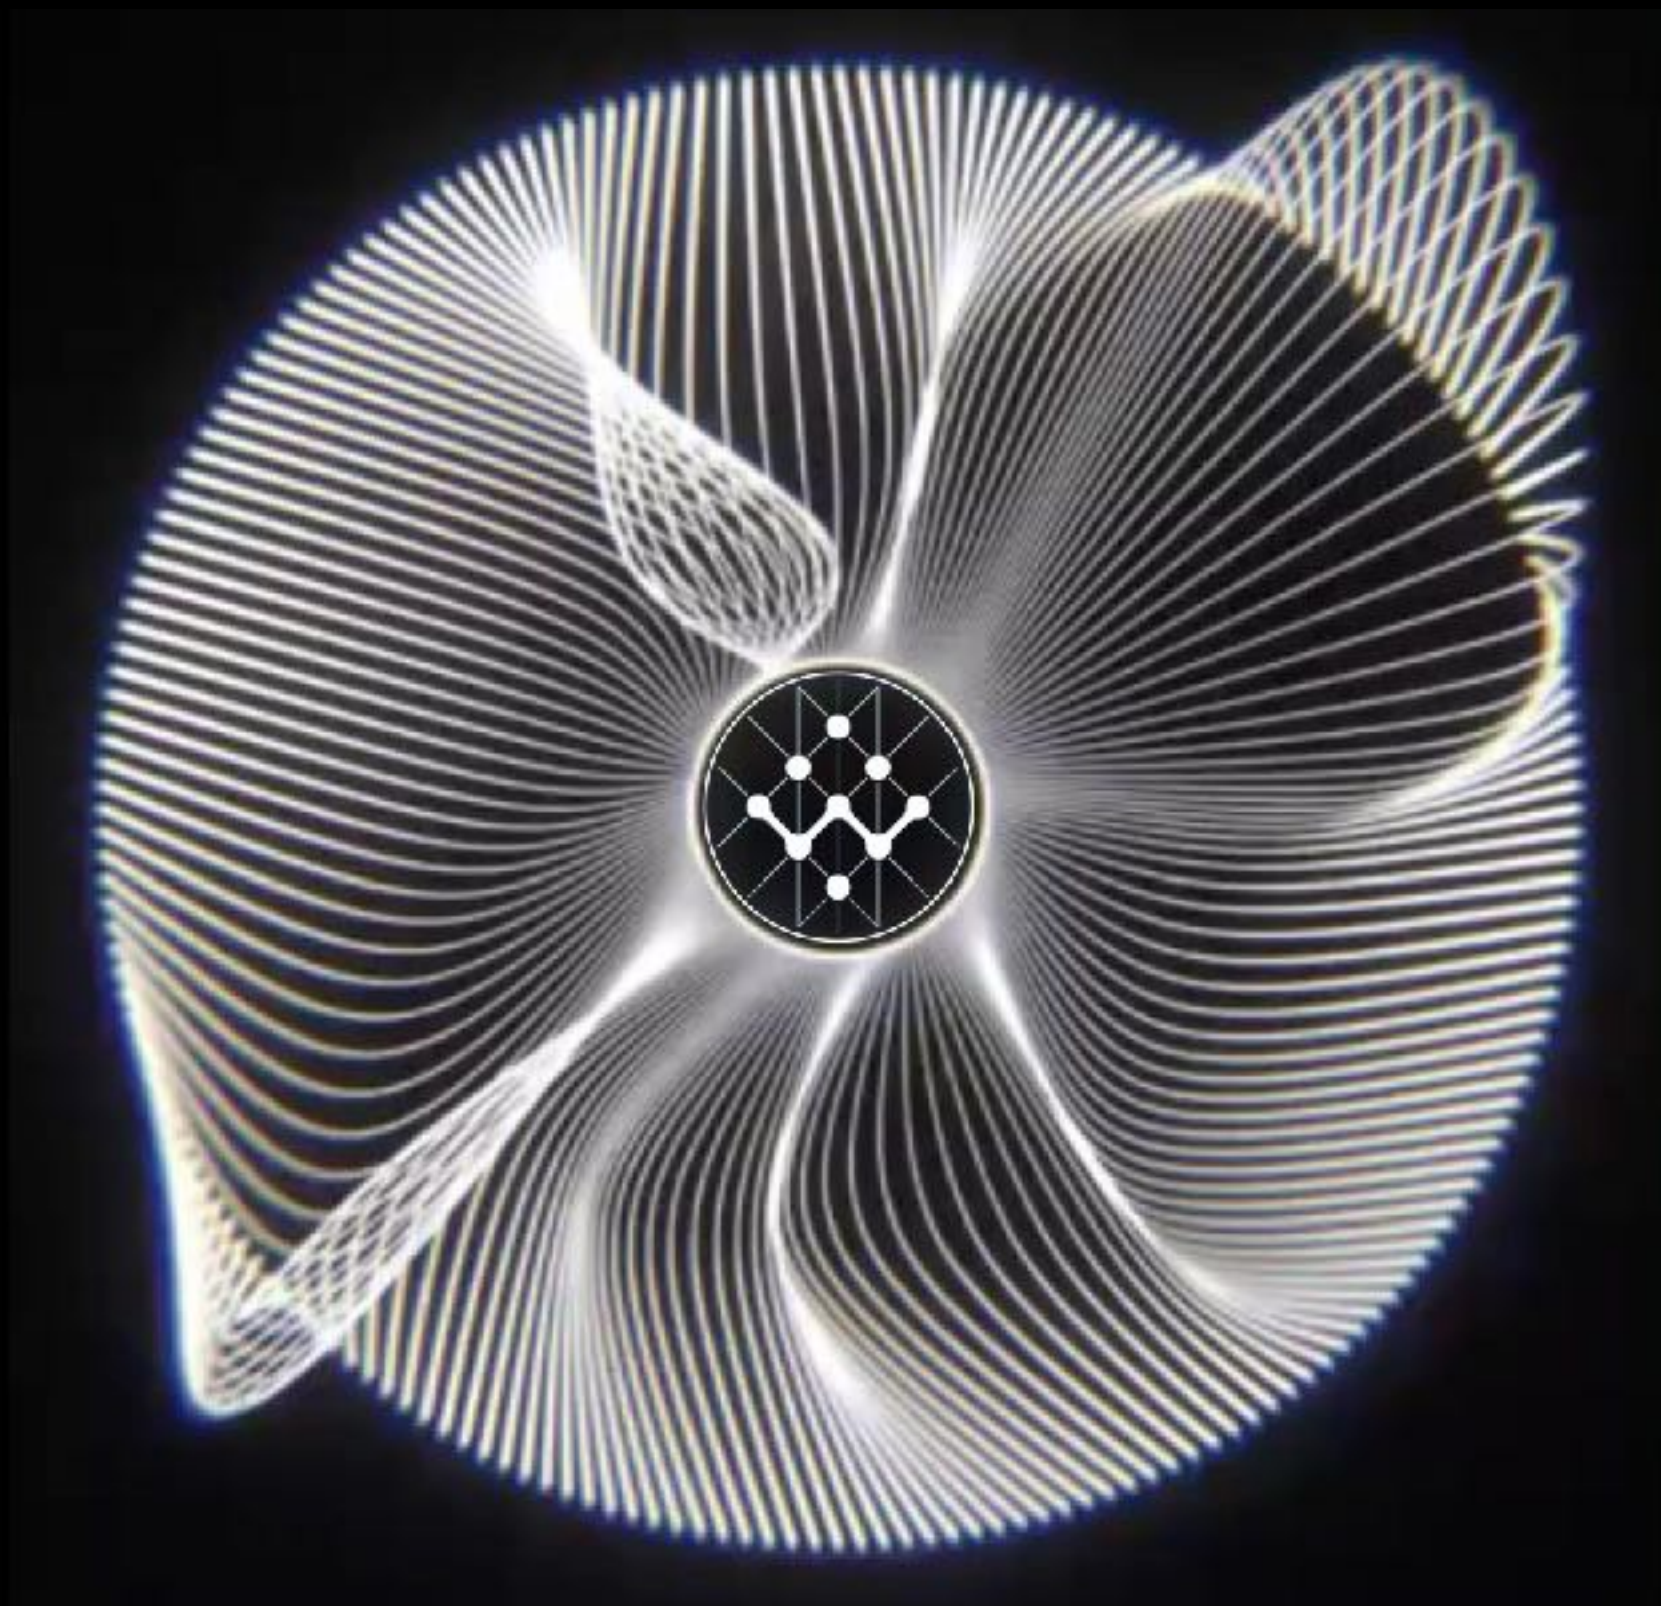

THE NEXT FRONTIER OF HUMAN EXPERIENCE

WHAT IF CONSCIOUSNESS WAS MEASURABLE?

What if our thoughts, feelings, and focus could influence the world in real time?

In the very near future...

- A light will glow when someone you love thinks of you.
- A reactive workspace will shift when you're in the flow.
- Games controlled by conscious-vibes, not buttons.
- Immersive Art shaped by inner-presence.
- Therapy technology guided by invisible shifts in the field.
- Teams and innovation will sync through group resonance.

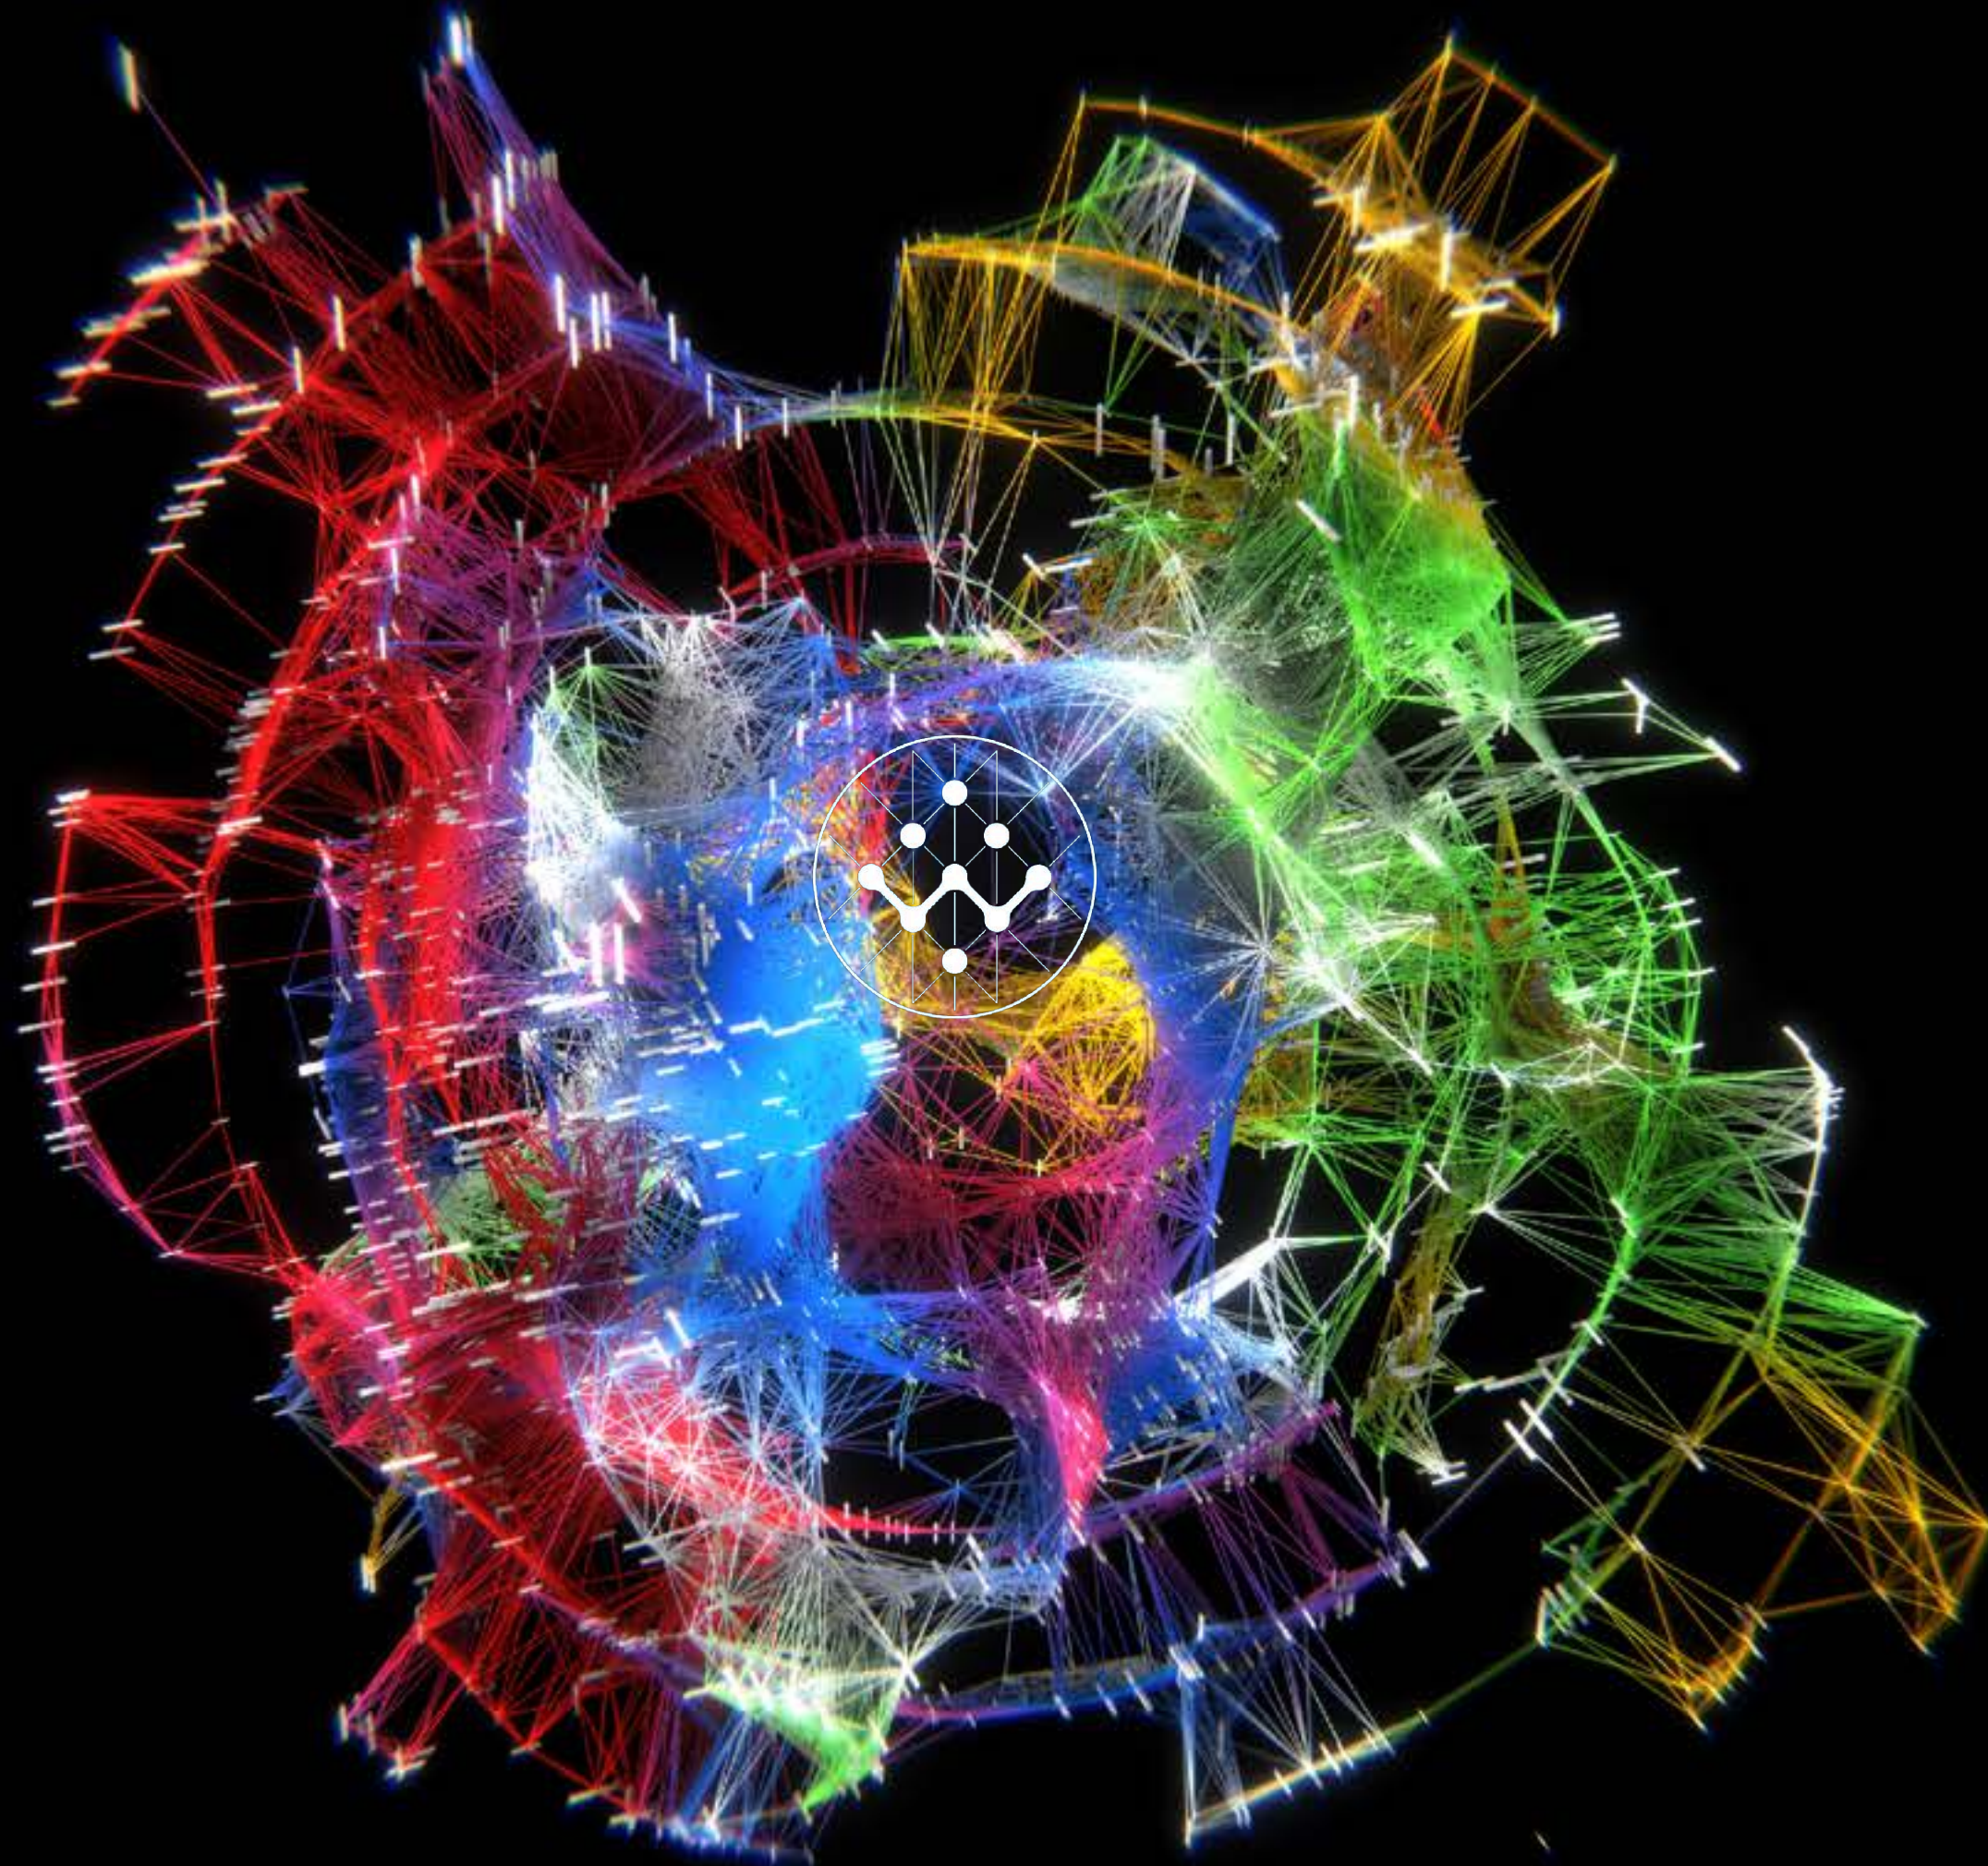

At WyrD, we're building technology that listens to our state of being, responds to intuition, and bridges the gap between intention and experience.

Our mission is to help humanity rediscover its innate interconnectedness and through our technology unlock the transformative potential that lies within.

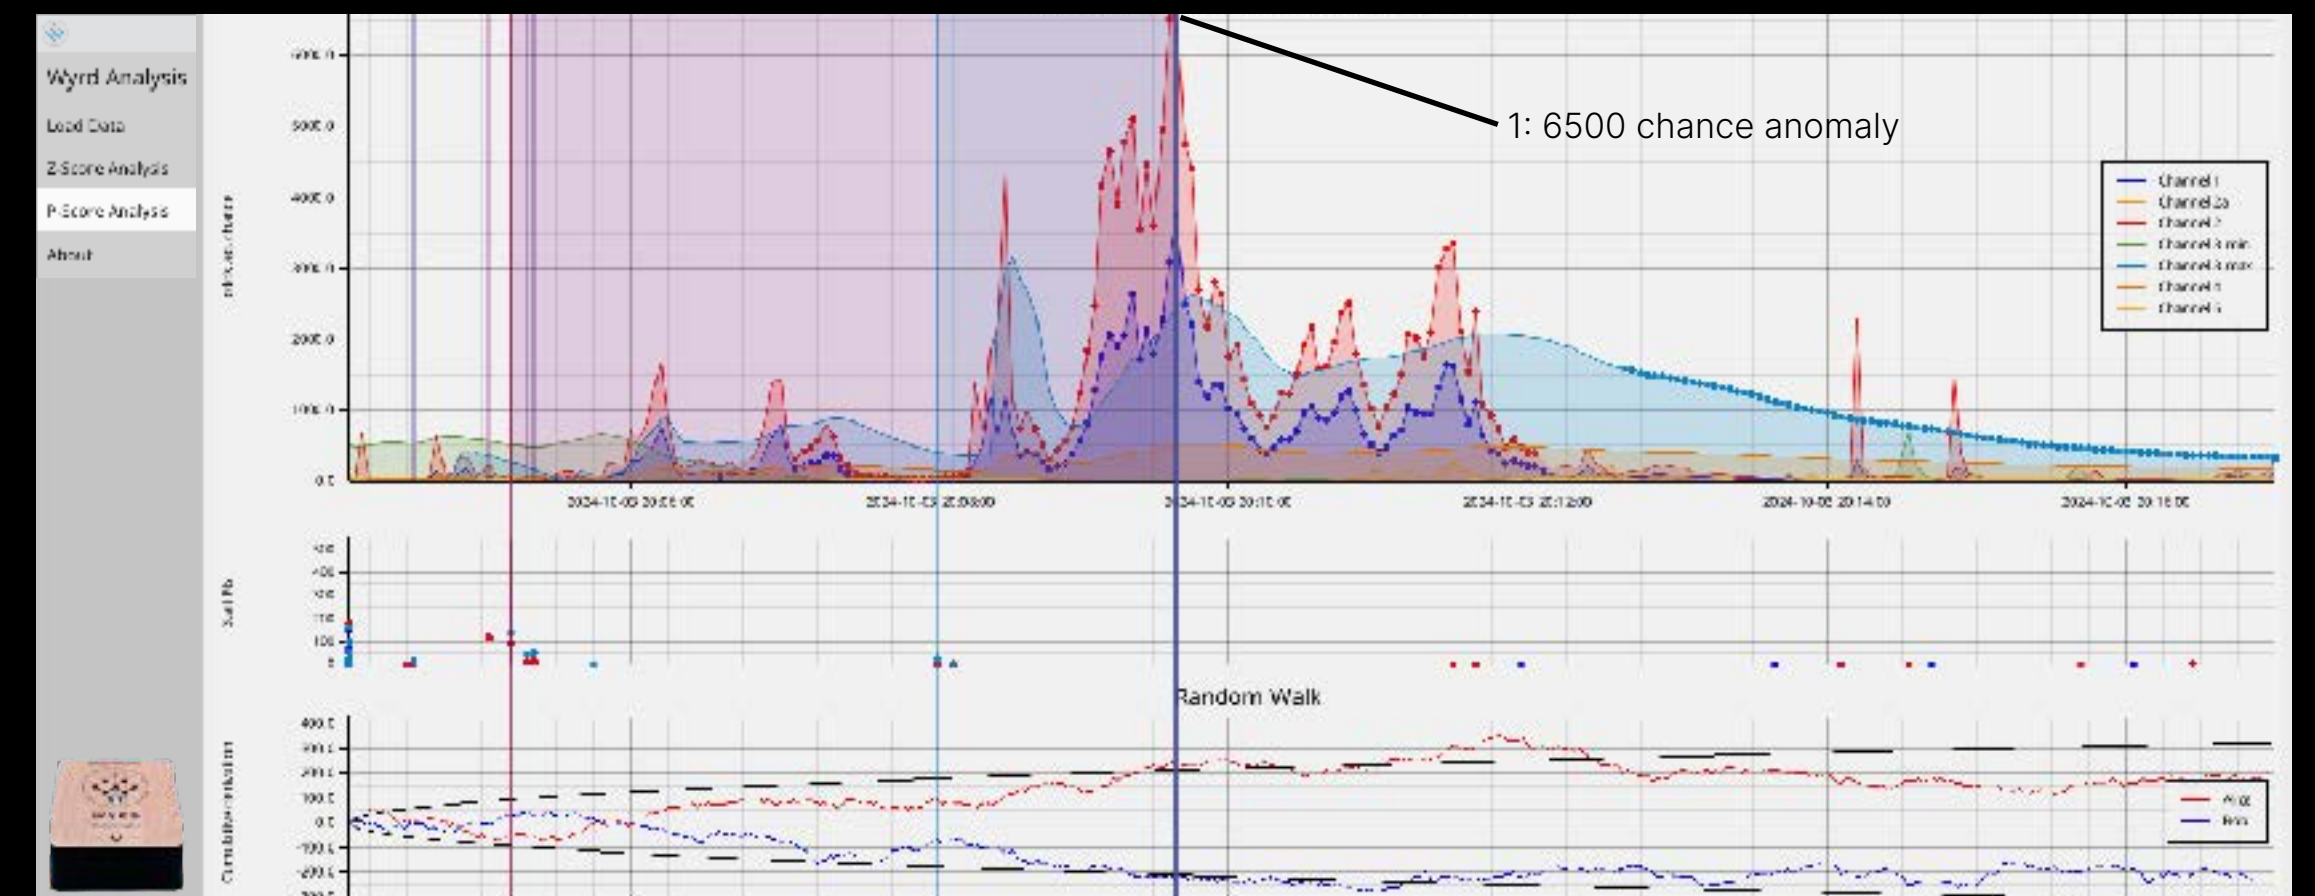

QUANTIFYING CONSCIOUSNESS

Building on Princeton's PEAR Lab, our chief scientist Dr. Wolfhardt Janu made a pivotal breakthrough twelve years after PEAR completed its groundbreaking work. By pairing two REGs side-by-side, Dr. Janu discovered that their interaction revealed emergent statistical patterns, that could not be explained by chance alone.

They developed a proprietary algorithm capable of detecting these subtle informational dynamics in real time and after dozens of controlled experiments, the data is now undeniable: they are seeing a 30-40% signal as human consciousness interacts with this field.

Our first peer-reviewed science paper is scheduled for publication in August 2025 marking a historic milestone in the science of consciousness.

This isn't science fiction... it's a new frontier.

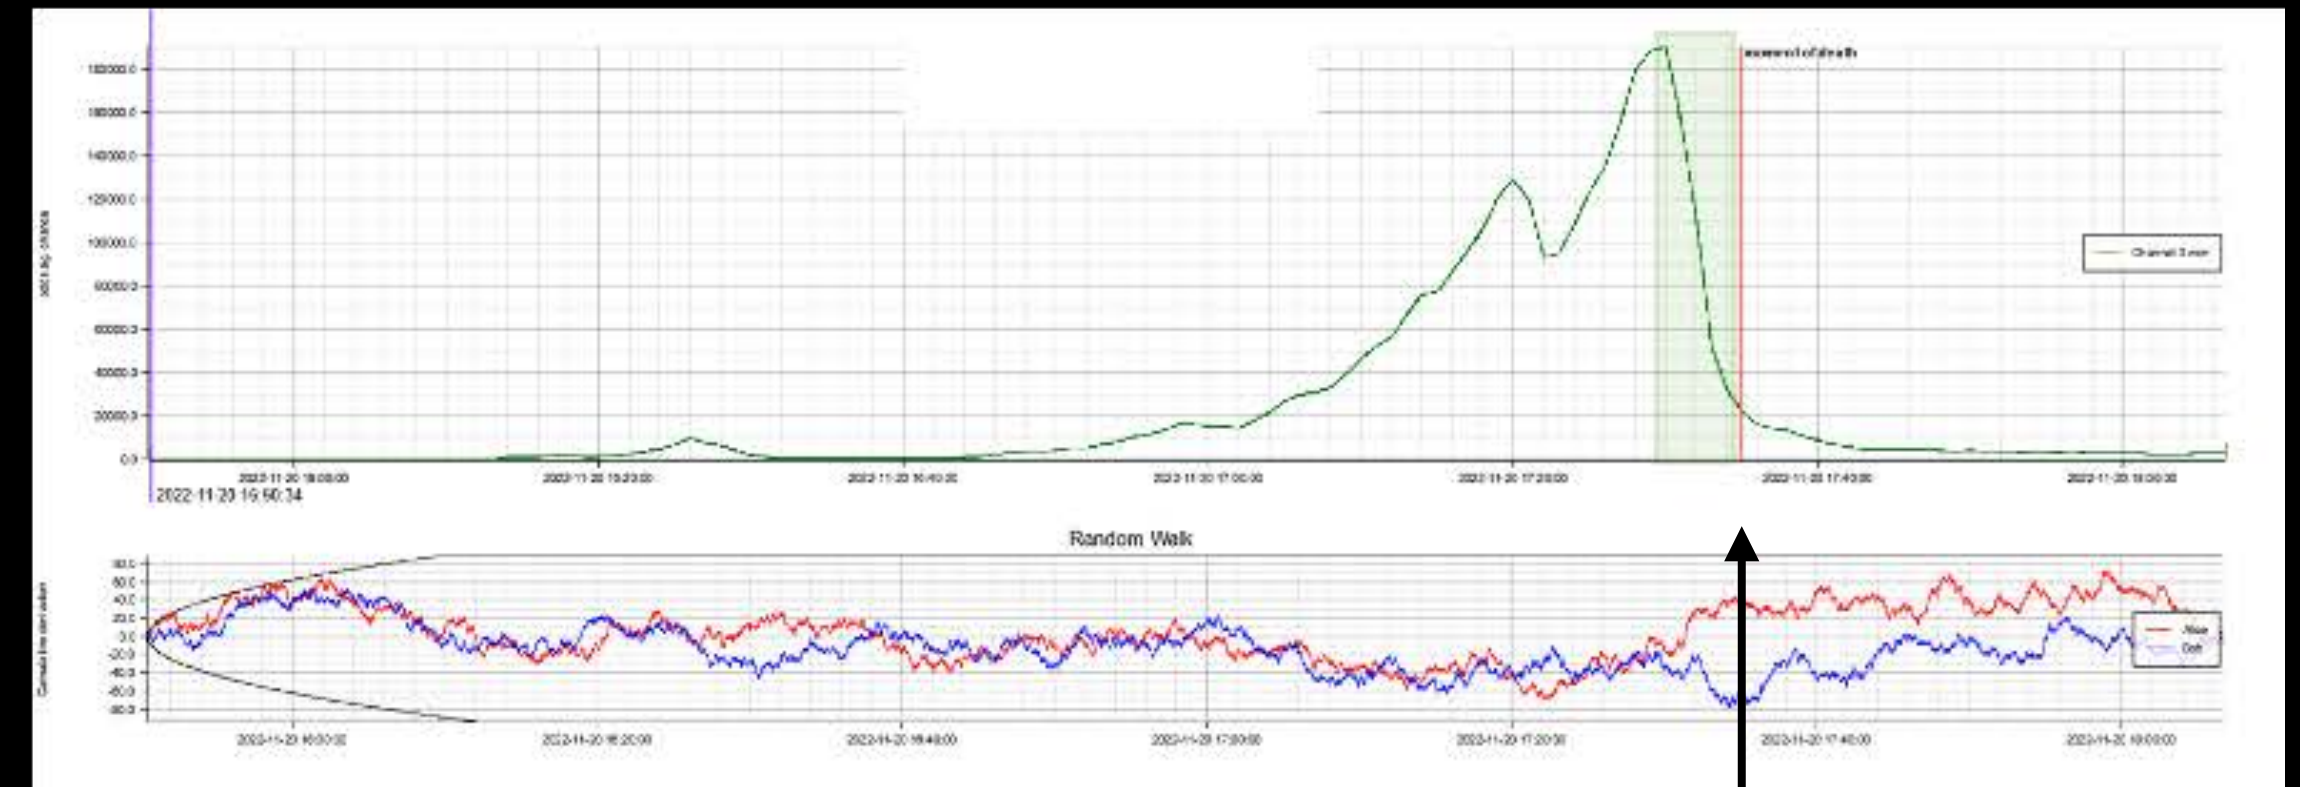

WYRD CORE TECH: DETECTING SYNCHRONICITY

Wyrd technologies detect how human presence influences the output of two random event generators and searches for significant patterns in the data.

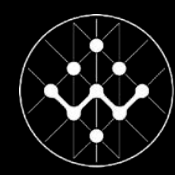

The result: The Wyrdoscope - a first-of-its-kind scientific instrument and our patented Wyrd Analysis software. Together, they form the first fully automated system able to observe, quantify, and analyse the informational field that exists beyond material perception.

Significant event. 1:2.5million.

What was anomaly is now an algorithm.

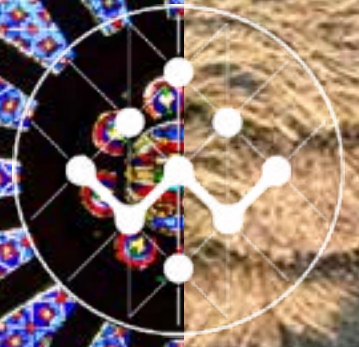

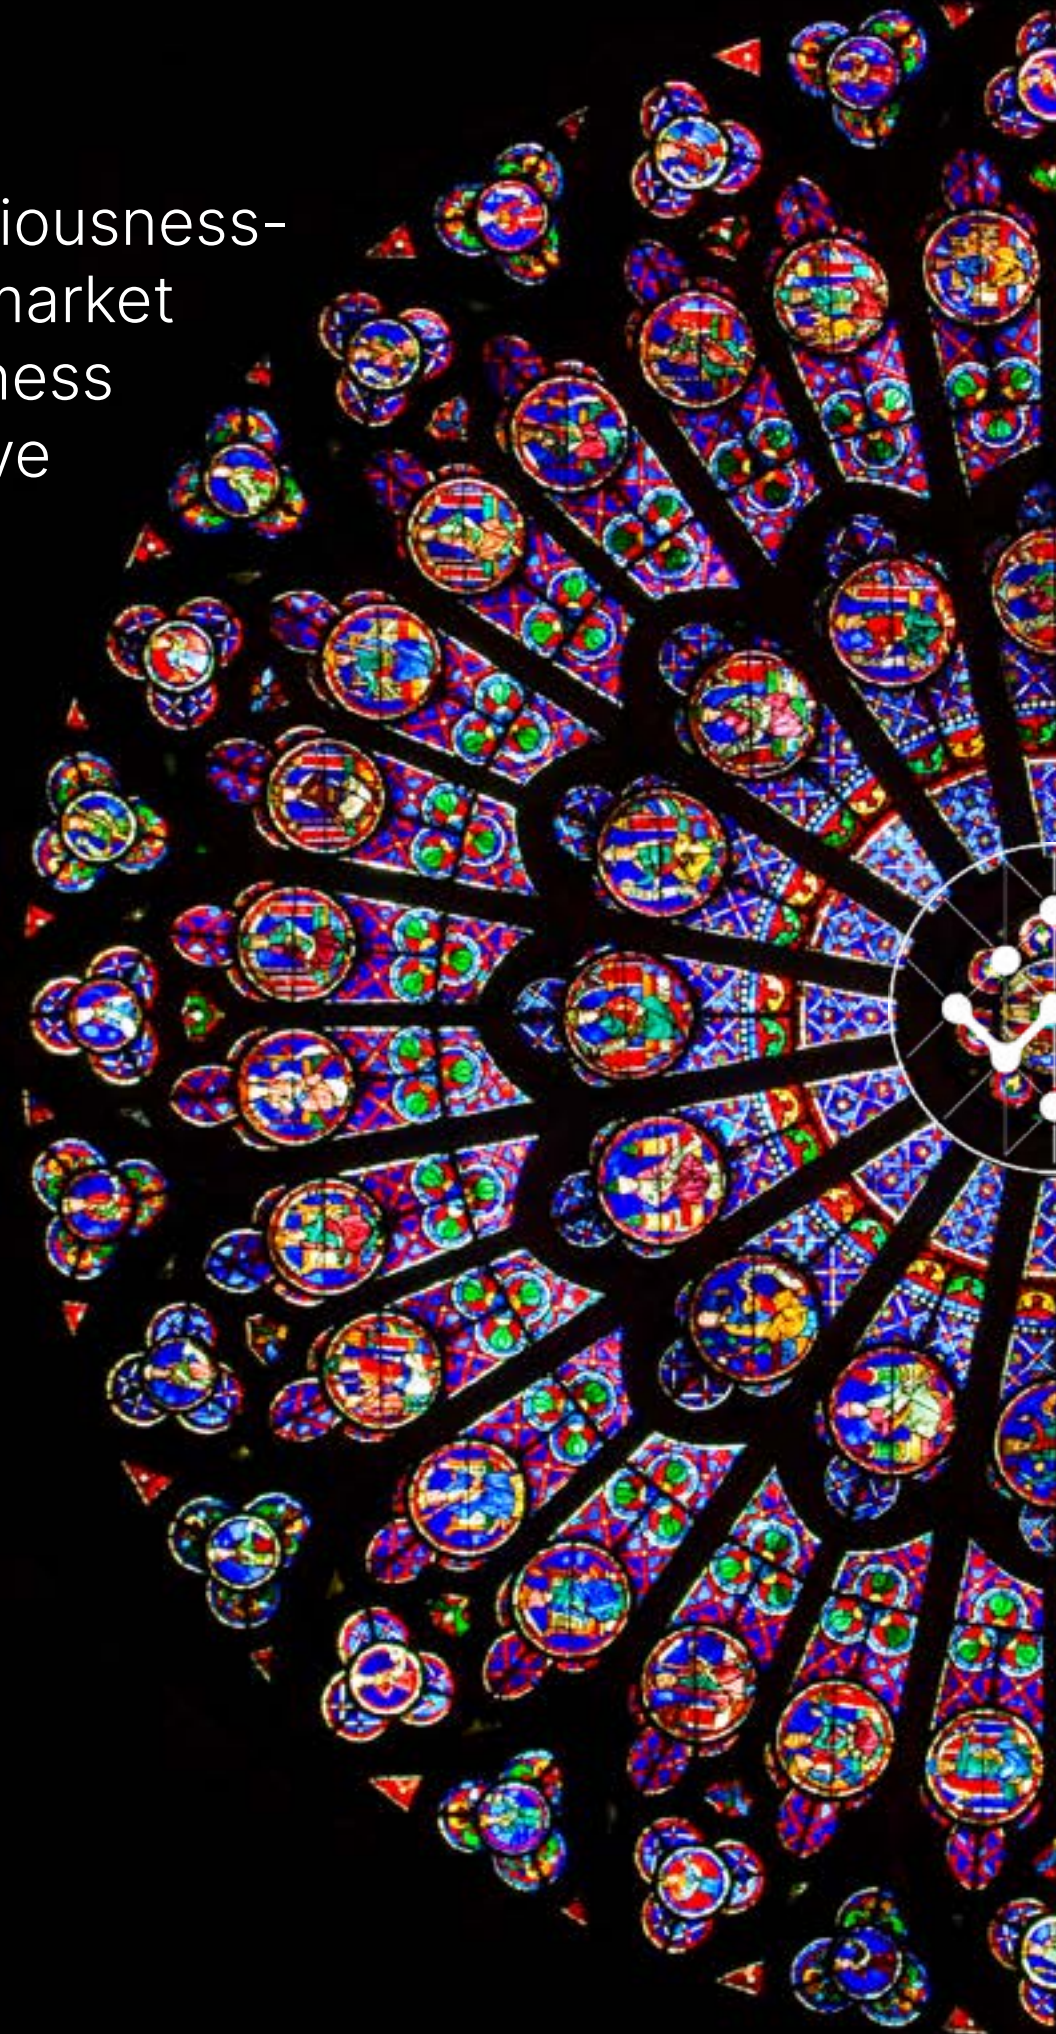

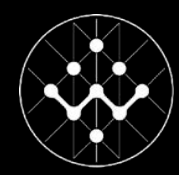

A CONSCIOUSNESS SENSORY SYSTEM

Wyrd Technologies is a pioneer in consciousness-interactive software, delivering first-to-market tools that integrate real-time consciousness data, emotional awareness and immersive feedback into third-party products.

Our primary focus is on B2B software analytics, scientific reporting and quality assurance across the emerging consciousness tech space.

With a growing network of partners and validated hardware platforms, Wyrd Technologies is poised to become an industry leader in the field.

AN INFRASTRUCTURE FOR INNER STATES

Vibe-tracking technology

Pattern detection

Consciousness → data

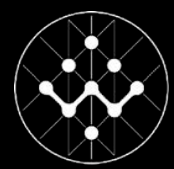

Consciousness → language

At the core of Wyrd Technologies
lies a syntropy engine.

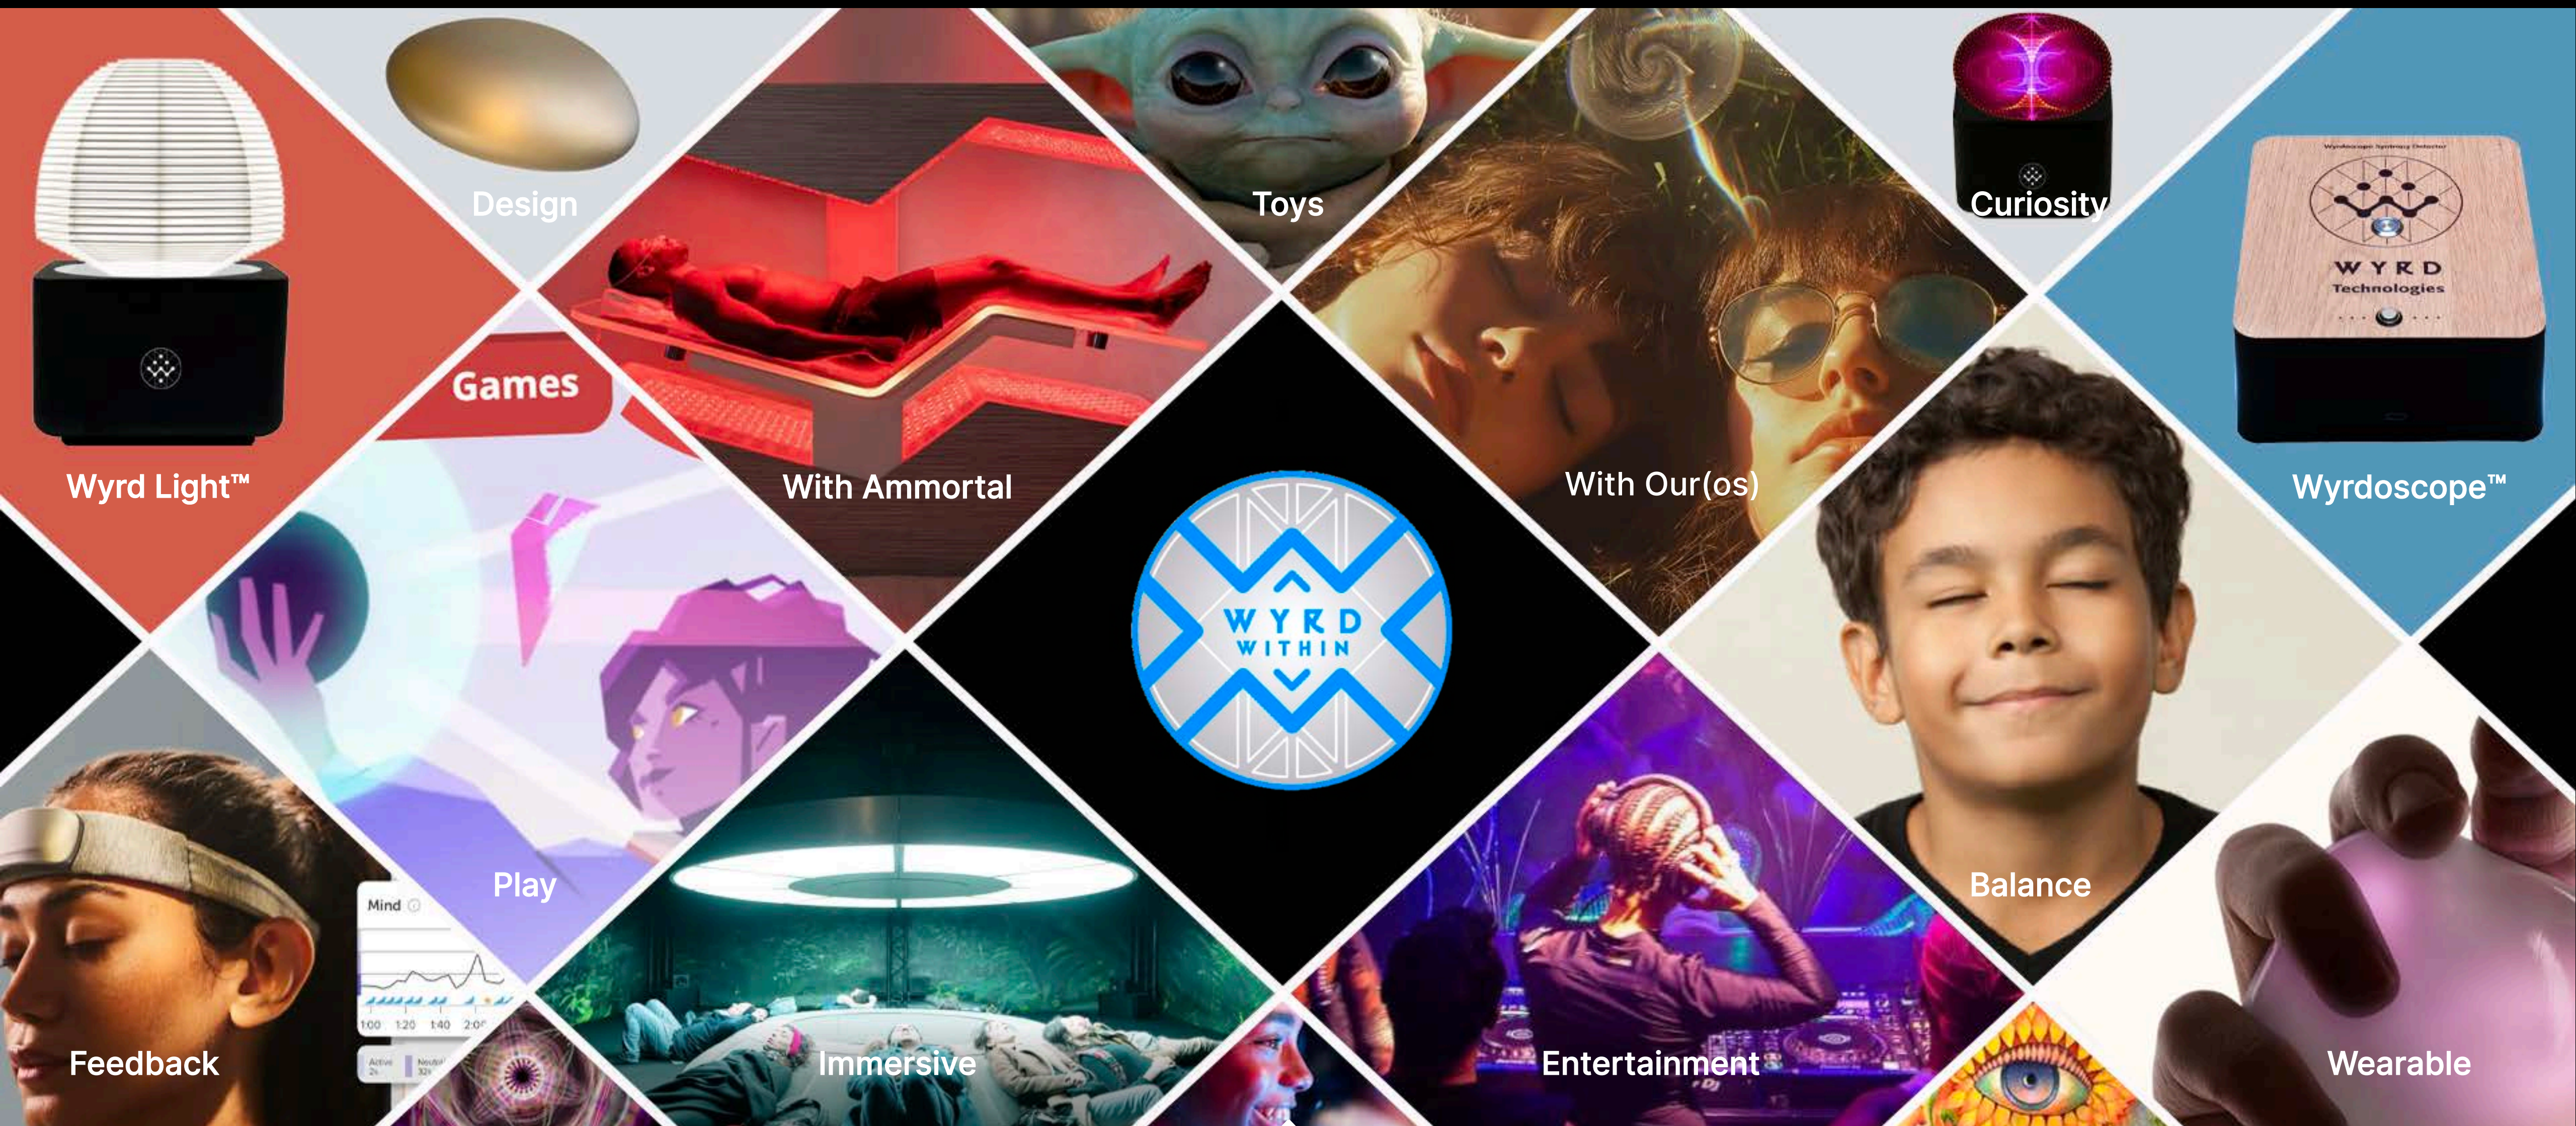

Consciousness <> Matter

A MULTI-MODEL MARKET STRATEGY

◆ **Consciousness Interactive Gaming is here.**

Are you ready to 'feel the force'? ◆

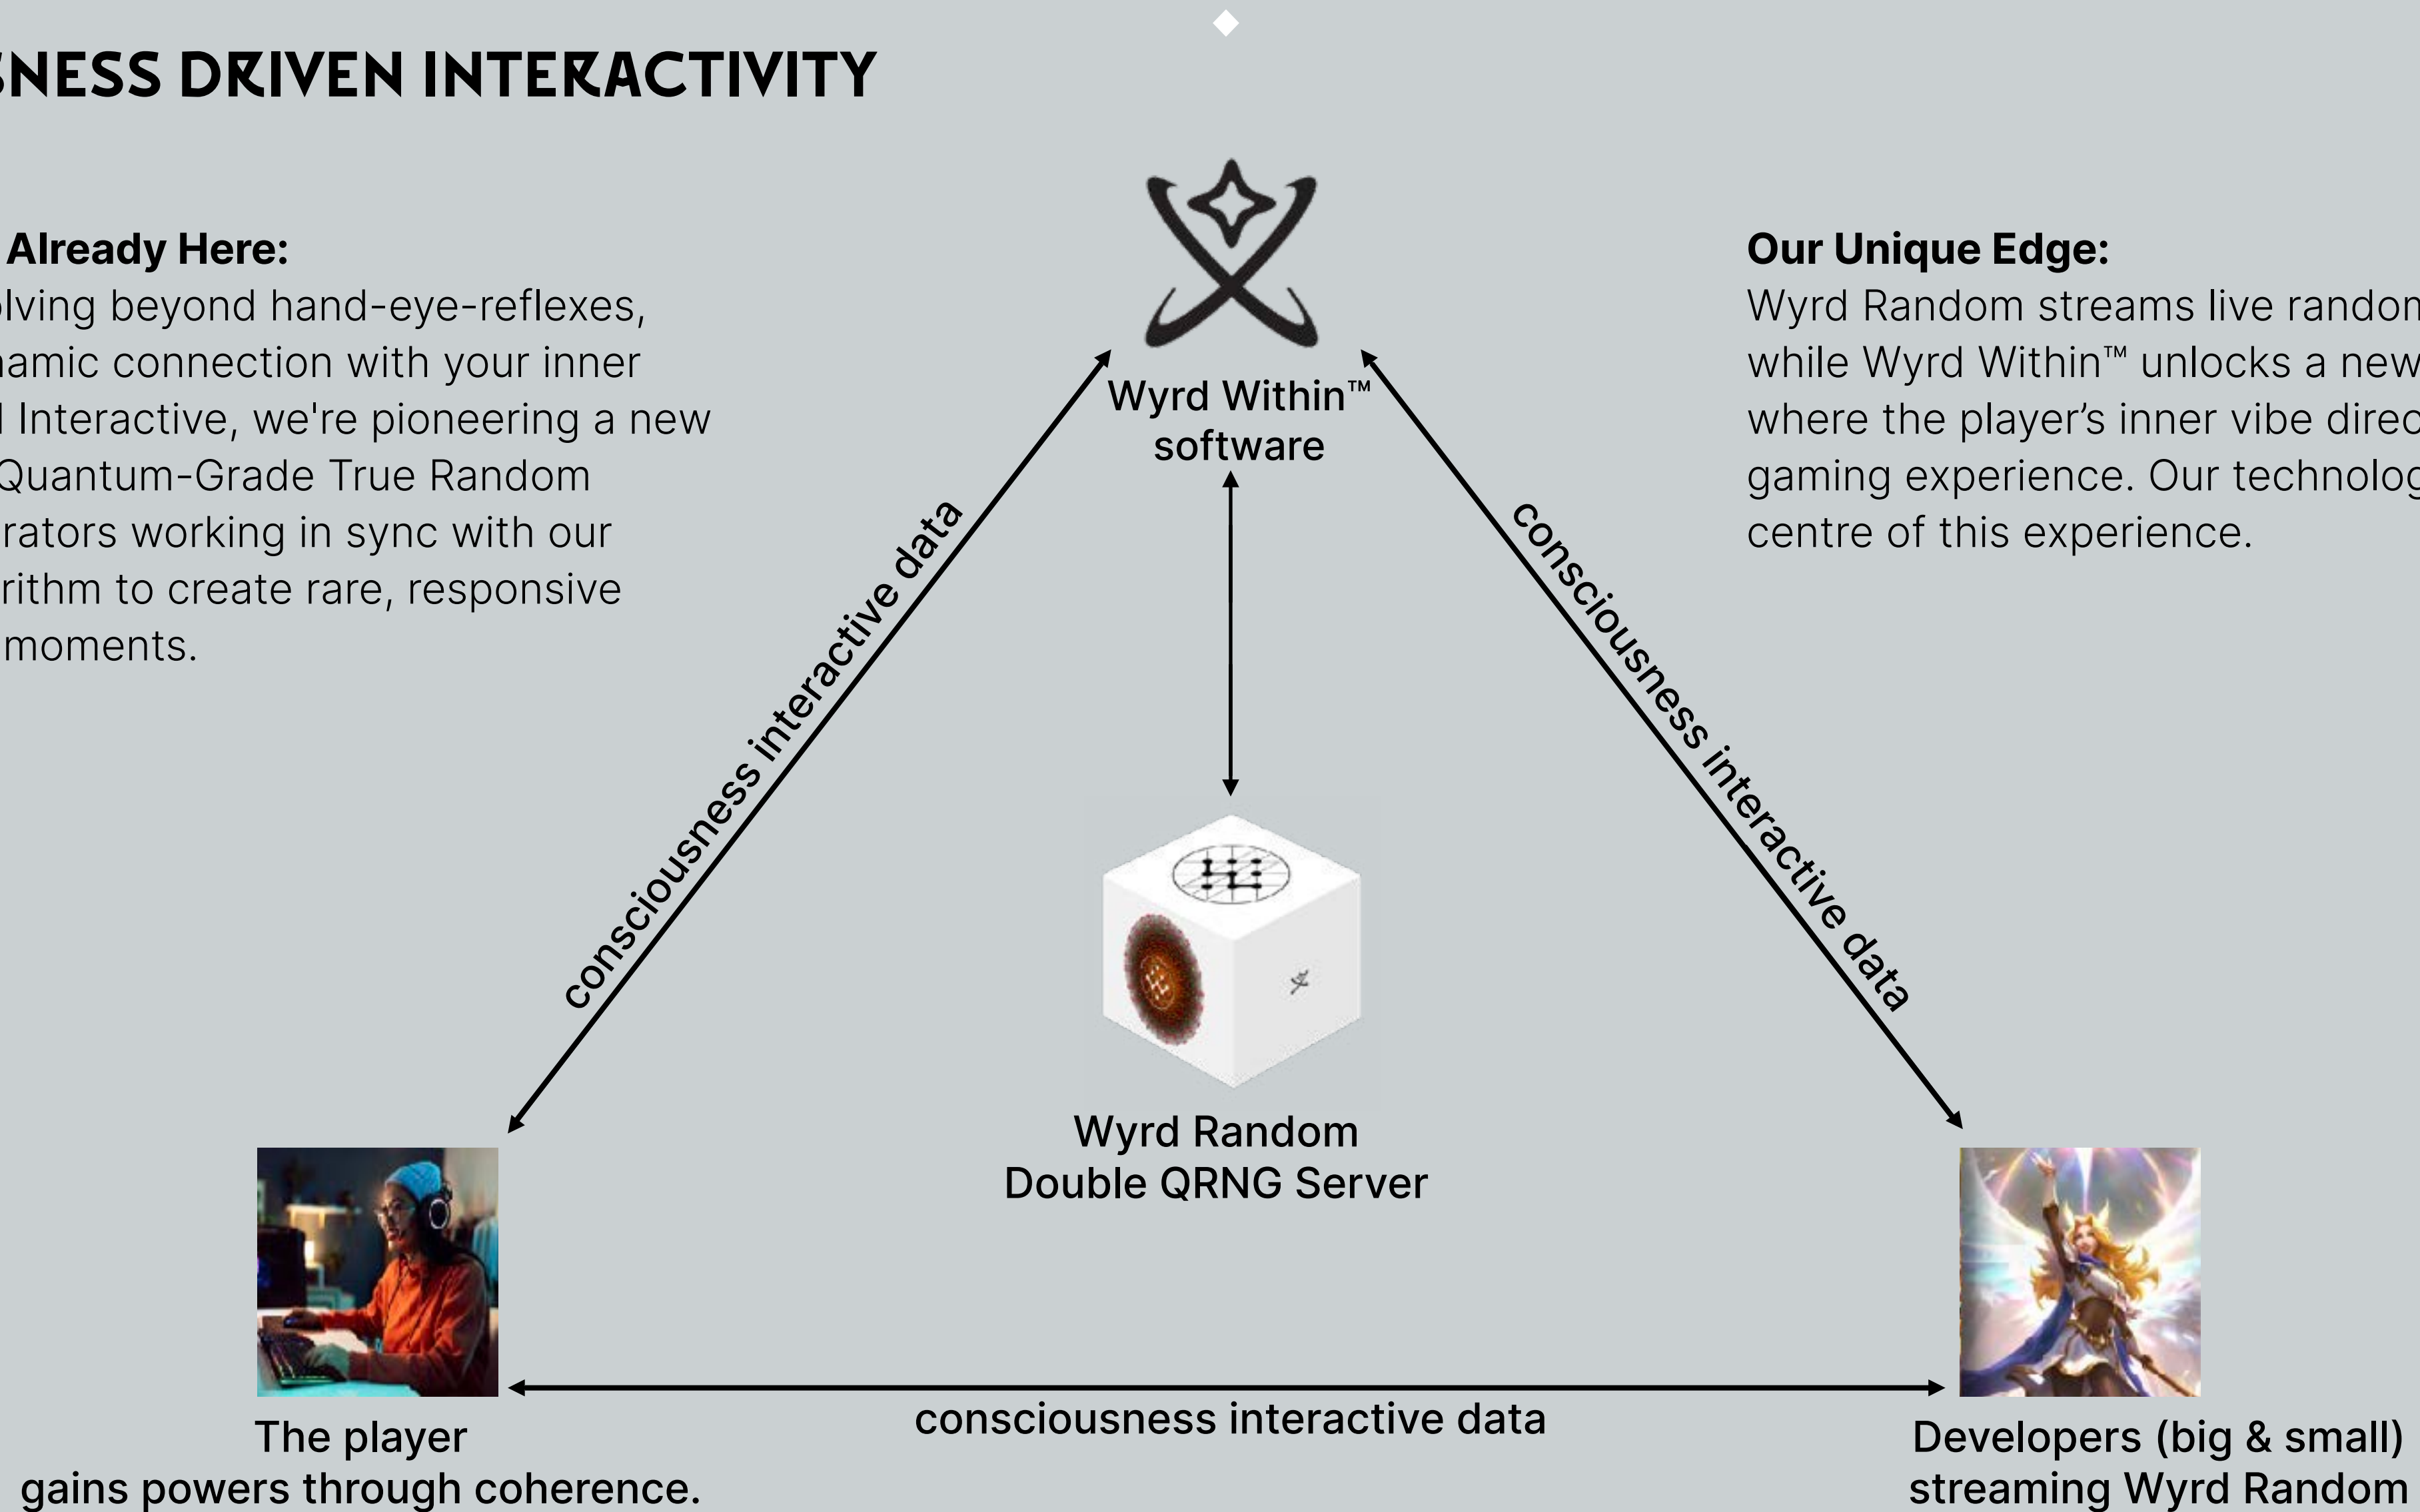

CONSCIOUSNESS DRIVEN INTERACTIVITY

The Future Is Already Here:

Gaming is evolving beyond hand-eye-reflexes, towards a dynamic connection with your inner state. At Wyrd Interactive, we're pioneering a new frontier: Dual Quantum-Grade True Random Number Generators working in sync with our patented algorithm to create rare, responsive and profound moments.

Our Unique Edge:

Wyrd Random streams live random data into gameplay, while Wyrd Within™ unlocks a new layer of interactivity where the player's inner vibe directly shapes the gaming experience. Our technology will be at the centre of this experience.

EXPLORE THE COMPELLING WORLD OF WYRD

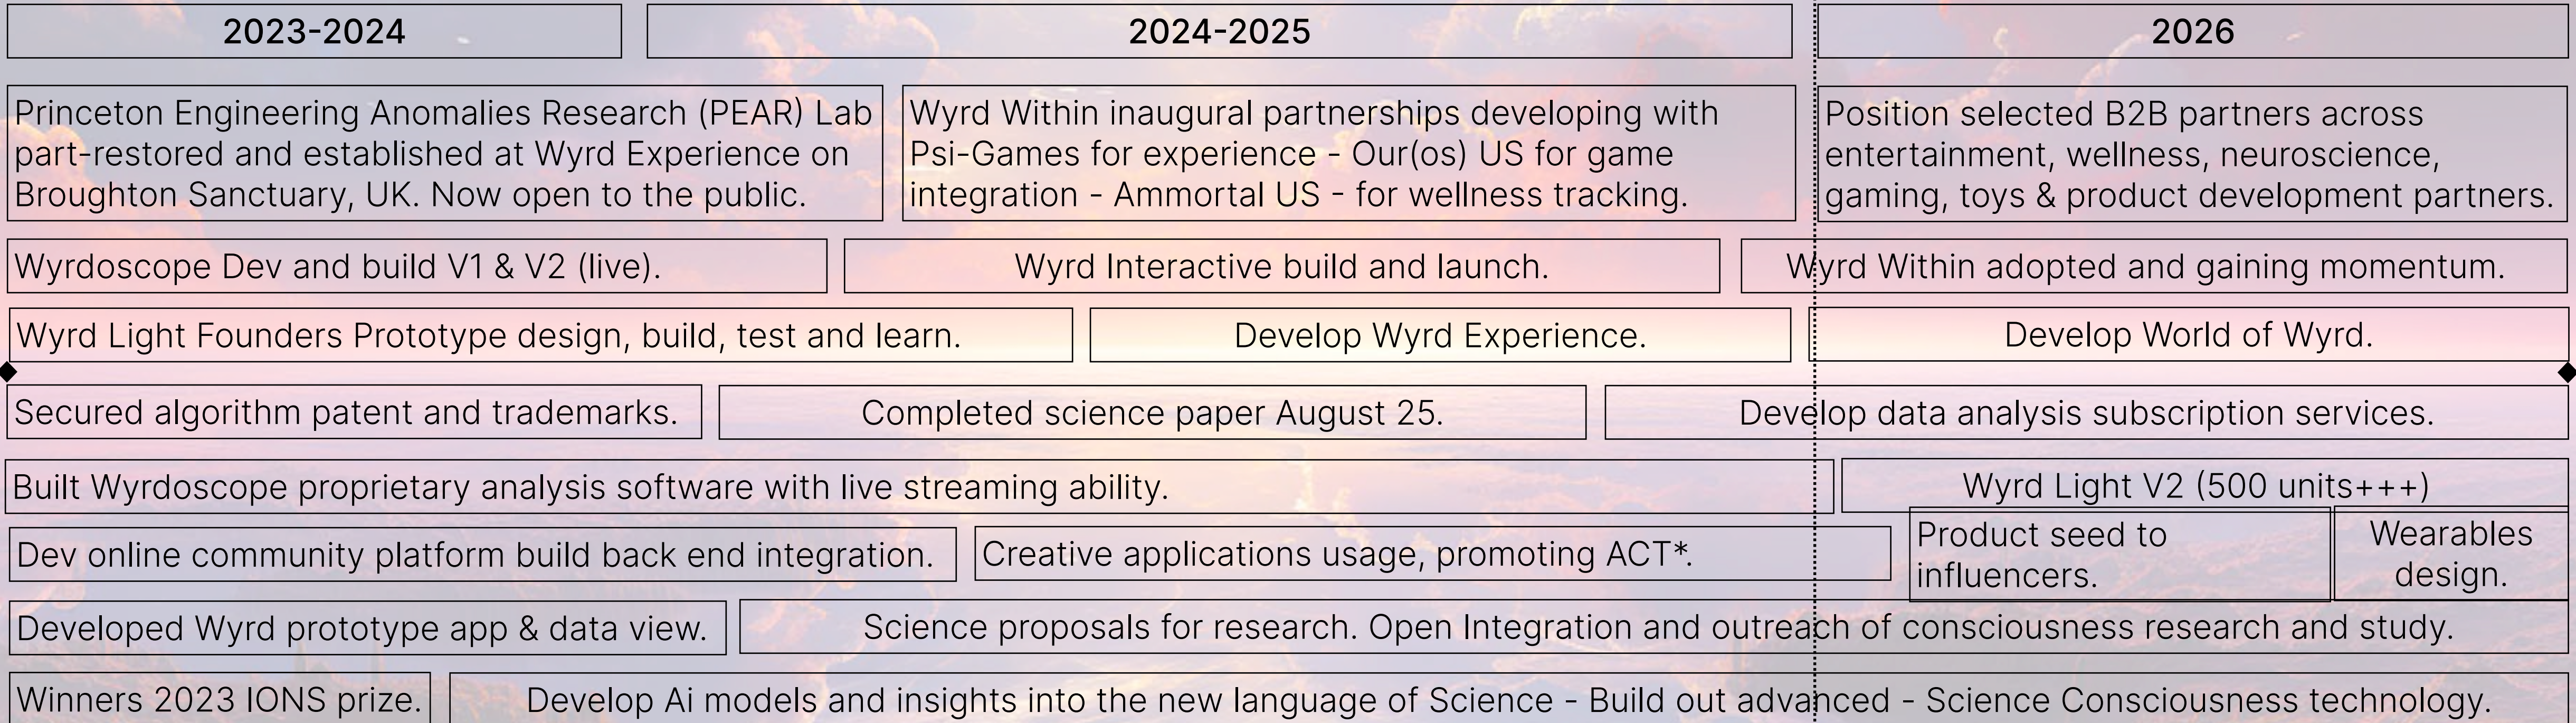

World Building.
Surrounding the brand, an underlying IP that weaves all things Wyrd together, offering a transformative, cohesive and accessible context for all our products and media.

A space to experience the interconnected.

A ROADMAP FOR INTERCONNECTION

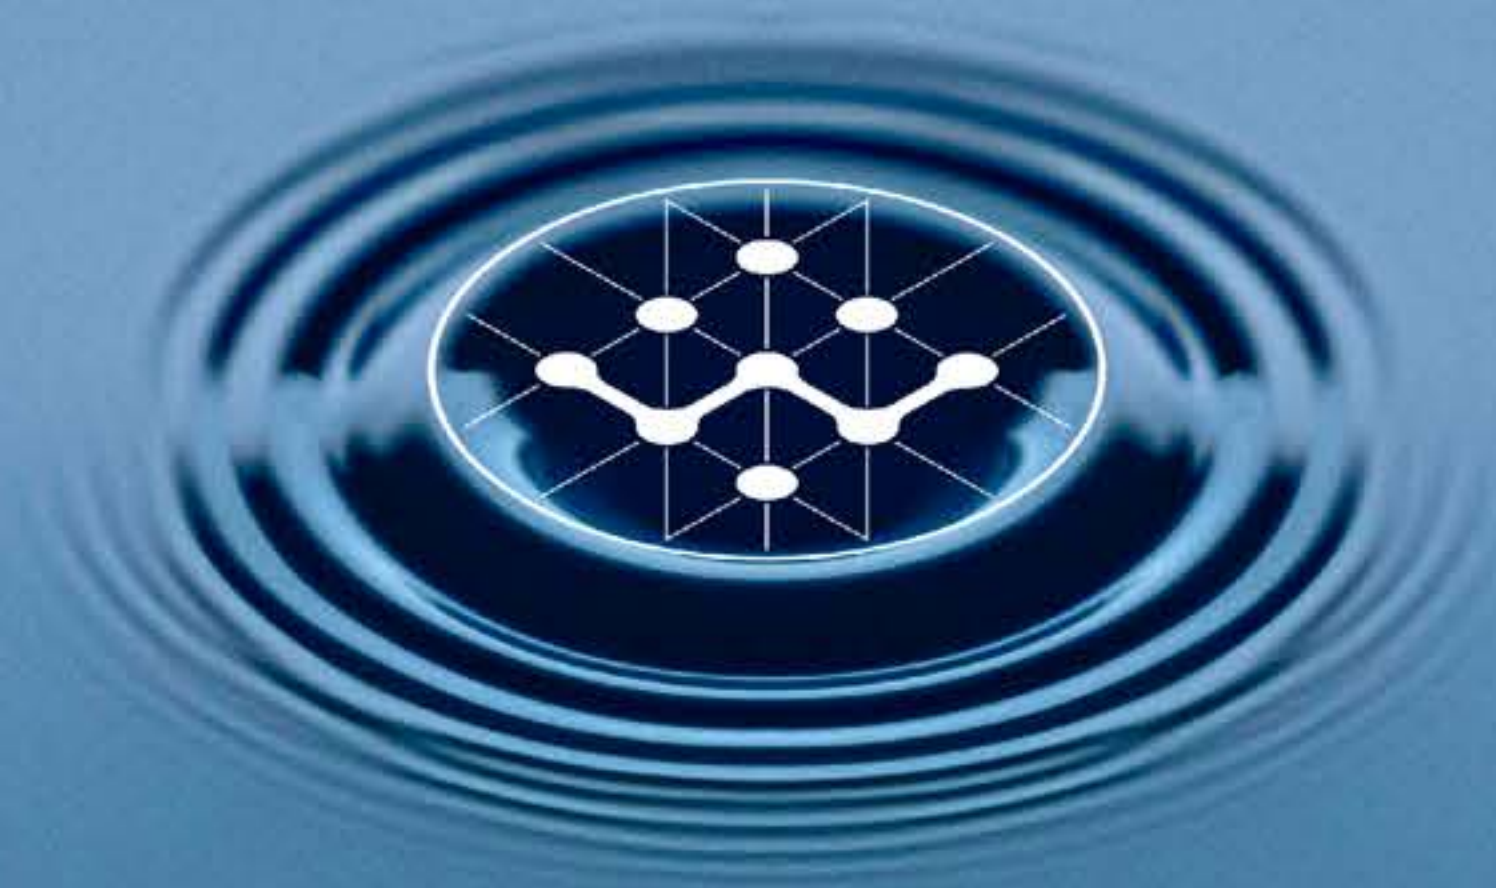

PIONEERING NEW TECHNOLOGIES

First to Market:

WyrD delivers the world's first consciousness-interactive technology, with licensed, affordable products across wellness, creative, gaming, experiential and therapeutic markets.

First to Science:

Through WyrD Research, we pioneer new discoveries with a business model designed to fund future scientific breakthroughs.

WYRD IS A CONSCIOUSNESS COMPANY

The company is transitioning to a new governance structure. More details available on request.

Wyrd Organisation: A Mission-Aligned, Multi-Stakeholder Commons.

Living Ecosystem: Wyrd is structured as a purpose-driven organism embedded in a broader ecological and economic system.

Six Capitals Framework: Organisational decisions balance Human, Social, Intellectual, Natural, Manufactured, and Financial capitals.

Fair Shares Commons Model: Moves beyond shareholder primacy—aligns all stakeholders (workers, users, founders, investors) to the purpose.

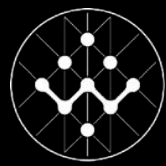

Stakeholder Governance: Multi-class system with dynamic voting rights, profit sharing, and capital gain allocations based on contribution + commitment.

Sustainable Financial Model: Profit and capital gain distribution strategies ensure long-term mission protection and equitable stakeholder value.

Values in Practice: Organising as nature does; adaptive, inclusive, and resilient.

“Organisations cannot be owned. They serve their purpose, people, and the planet.”

ACTIVATING CONSCIOUSNESS TECHNOLOGY

Wyrd Ethos.

Mission: Reconnect humanity with itself, each other and life through consciousness experiences.

Vision: A world where people consciously engage with the invisible fields connecting all life.

Core Values:

Scientific transparency & ethical IP protection.
Regenerative business practices.
Collaborative and inclusive decision-making.
Organising as nature does-adaptive, participatory and purpose-driven.

Thank you.

Love,

Team Wyrd.

A TESTIMONIAL

“On the final night of the Science and Consciousness Conference 2024, Wyrd Light V1 was placed into the sacred space which had been active for five days; a pure white light illuminated the room for over 25 minutes and the highest P-score was recorded for the event”.
